

**International certification program for  
athletes in the disciplines of air athletics-  
ILSAA**

**International Air Athletics Association**

**1. . Standards (the lowest score) to obtain national sport category or level in one of the disciplines of air athletics under the program of International sports levels of air athletics.**

**Table №1 Mandatory standards for ILSAA**

international classification standards of International Air Athletics - ILSAA									
IAAA levels	Elite (9)*	Master (8)*	7	6	5	4	3	2	1
1-Final score	86	76	71	65	55	45	35	25	20
2- Qualification exercises score	46	43	40	35	30	25	20	15	8

**2. . Age limits - ILSAA**

1. The level 9 and Elite can be obtained only by the athlete aged more than 15.
2. The level 9 and Master level can be obtained only by the athlete aged more than 14.
3. The level 8 can be obtained by the athlete aged more than 12.
4. The level 7 can be obtained by the athlete aged more than 10.
5. The level 6 can be obtained by the athlete aged more than 9.
6. The levels from 2 to 5 can be obtained by the athlete aged more than 6.
7. The level 1 can be obtained by the any athlete aged more than 5.

**3. Conditions of performance standards:**

1. In order to pass certification to the international level in the disciplines of air athletics, an athlete must fulfill 2 conditions (standard) \*\* at any international IAAA tournament, that is, to receive points not less than are shown in Table 1 on the corresponding level:
  - 1.1. **Final score** - assessment of the participant's performance, the total performance score in one of the disciplines of air athletics at the international tournament.
  - 1.2. **Qualification exercises score** - evaluation of the participant's performance (total score) according to the protocol "Mandatory and qualification exercises" (form F-1) in the same discipline and at the same tournament.
2. 1-5 Levels IAAA are assigned when the standards at the international tournaments IAAA are fulfilled, if the following conditions are additionally met at the tournaments:
  - 2.1. at least 3 participants who participated in the category
3. Level 6 is assigned when the mandatory standards are at the international IAAA tournament if the following conditions are additionally met at a tournament:
  - 3.1. at least 4 participants in the category
  - 3.2. entry into the top three winners (prize winners) at these qualifying competitions
4. Level 7 is assigned when the mandatory standards are fulfilled at the international IAAA tournament if the following conditions are additionally met at a tournament:
  - 4.1. At least 5 participants performed in the category.
  - 4.2. Tournament status must be - national qualifying final or international IAAA tournament
  - 4.3. The results of the participant are included in the top 5 in his category.
5. 8-9 level title Master or Elite are assigned when fulfilling the mandatory standards only at international IAAA tournaments if the following conditions are additionally met at the tournaments:
  - 5.1. At least 6 participants performed in the category.
  - 5.2. Tournament status - international IAAA tournament

- 5.3. The participant must be the prizewinner.
- 5.4. The athlete has at the time of certification the current level 7
6. If the qualification score is lower than it was established or the additional conditions for obtaining the corresponding level are not met, then:
  - 6.1. the participant (athlete) remains previously received level, provided that he already had it;
  - 6.2. if it is a primary certification, the athlete cannot obtain any level or category;
7. If a participant (athlete) did not qualify (did not pass the standard) at international levels , except for 7-9 international levels, then he has the right to re-qualify at the next tournament during the current year , but not more than 3 times per season.
8. Attestation to any international level, application for confirmation of a sport category (level) or its promotion is possible no more than once a year;
9. If two years have passed since the date of assignment of the level (sport category), and the conditions are not confirmed, then it is canceled;
10. Sports levels (categories) are assigned for a period of 2 years, except for cases when within 2 years from the date of assigning a sports category an athlete re-qualified to assign the corresponding sport category (that is, confirmed the current sports category). In this case the period of validity of the sports category is extended for 2 years from the date of confirmation of the sports category.
11. The grounds for refusal in the assignment of a sports category are:
  - 11.1.1. non-compliance of the athlete with the norms and / or requirements and conditions for their fulfillment with the standards and / or requirements and conditions for their implementation provided by the national federations or the IAAA;
  - 11.1.2. violation of the deadline for submission of documents for the assignment of a sports category
  - 11.1.3. the athletic disqualification of an athlete, which occurred before or on the day of the official competition, in which the athlete complied with the appropriate standard and / or requirement provided for by the national federation or the IAAA;

### **Please note,**

- \* International levels 8 and 9 and the title of Master or Elite, assigned only by the International Federation of International Air Athletics Association (IAAA) for participation in international tournaments.
- \*\* Any national sport category is awarded for compliance with the standards and conditions, that is, **it is impossible to get a discharge only for a prize in a tournament.**
- \*\*\* international levels 8 and 9 and titles Master or Elite (national sport categories M/WCA and the CM), **can not be obtained through primary certification**, these titles are assigned only to athletes who have a valid I grade (7 level), taking into account the requirements of paragraph 5-8 national level system.
